Dear Judge Kollar-Kotelly,

I believe the suggested remedies reported in the news are not going to have the slightest impact on Microsoft's predatory marketing practices and subsequent illegal abuse of monopoly power.

I don't need to recite more examples to you. I'm sure you've seen them all by now. You have seen what has been done by Microsoft to date as well as their indignant attitude during the whole process. You are a judge, and it is time for you to do that now. All I ask is that you don't allow the settlement process to make precedent that will allow Microsoft to continue its rough-shod run over the rest of the technology industry and its customers.
